7. TYRES

7.1 NUMBER OF TYRES & TYRE MARKING PROCEDURE

7.1.1 Eligible tyres

All tyres used for rally stages on tarmac and road sections must be marked «E» or «DOT» in accordance with the appropriate standard of the country in which the Competition is taking place. They must have a minimum external diameter corresponding to the period in question (see Article 8.4.2 of Appendix K) and they must not be marked «*Not for highway use*» nor «*For Racing Only*» nor imply any indication limiting, specifying or recommending a use in competition. Any alteration, modification or adaptation (which for the avoidance of doubt includes cutting of additional grooves) of tyres other than wear through normal use is forbidden. For stages run on gravel, and so declared by the clerk of the course, no «E» or «DOT» tyre marking is necessary.

a) Cars of Category 1: During Competitions classed as tarmac event (i.e. excluding gravel or snow Competitions) there shall be **a maximum of 14 tyres permitted**. Tyres must be uniquely identified with a barcode (or such other method as may be prescribed) and registered with the FIA eligibility delegate before the start of the Competition. Checks for compliance with this regulation may be undertaken at any time during the Competition and any discrepancies will be reported to the stewards. A detailed information sheet will be available before each Competition.

b) Cars of Category 2, 3 and 4: During Competitions classed as tarmac (i.e. excluding gravel or snow Competitions) there shall be **a maximum of 10 tyres said «dry» permitted**. Tyres must be uniquely identified with a barcode (or such other method as may be prescribed) and registered with the FIA eligibility delegate before the start of the Competition. Due to the lack of availability of «wet» tyres in their appropriate sizes, the cars listed as exceptions in the appendix to the FIA authorized wet tyre list may register a maximum of 14 tyres before the start of the Competition. Thus, there is no allowance for additional «wet» tyres. Checks for compliance with these regulations may be undertaken at any time during the Competition and any discrepancies will be reported to the stewards. The number of «wet» tyres is not limited. Only the «wet» tyres as per the FIA authorised tyre list can be used. A detailed information sheet will be available before each Competition.

7.1.2 Tyre marking is obligatory for all the competitors. All tyres must have a specific barcode number supplied by the 2023 FIA-approved barcode supplier. All tyres must be registered with the FIA Eligibility delegate before the start of the rally, at pre-event scrutineering. The cars must be presented at the tyre Marking Zone with their spare wheels placed with the outer part of the rim on top, and if needed, unfastened, to facilitate the procedure. Following the marking, and before the cars departure from the tyre marking area, crews, or their team member, must properly fasten the spare wheels as required. For Competitors taking part in the Shakedown, tyres used for the Shakedown will not be marked.

7.1.3 Tyre Marking during the rally

A wheel/tyre marking / barcode reading zone may be established at the exit of the authorised service parks or remote service zones and at the start of a stage.

The crew must stop its car and wait for the instructions of the scrutineers and/or marshal. In the absence of scrutineers or marshals, the crew may leave the zone without stopping. A tyre mark checking zone may be established at the entrance of the authorised service parks and remote service zones.

7.1.4 Means of control

Checks for compliance with this regulation may be undertaken at any time during the rally and any discrepancies will be reported to the stewards. A detailed information sheet will be available before each rally.

7.2 TYRES USED FOR RECONNAISSANCE

Only E- or DOT-approved homologated road legal tyres are allowed. Retreated tyres are forbidden for reconnaissance. Any treatment (i.e., removing or damaging) on road tyres side markings or texts is not allowed.

7.3 NATIONAL LAWS OR SPECIAL REQUIREMENTS

At all times during the rally, the tread depth of the asphalt tires mounted on the vehicle must have 1.6 mm over at least 3/4 of the tread.

APPENDIX 6 GPS MONITORING SYSTEM ONI®

General provisions

All competition cars must be obligatorily equipped with the ONI® tracking system. ONI® tracking system will be rented to the competitors. Eventual destruction, non-return or damage of the unit must be paid by the competitor to the organizer in accordance with the applicable price list see Art. 9.2.1.

In case of non-returning GPS tracking system immediately after the event, the fine 200 euro will be imposed to the competitor.

Distribution of the ONI® tracking system

ONI® tracking system contains following parts:

- tracking unit with display
- tracking unit holder
- power supply cable
- combined antenna roof
- control panel containing:
 - OK button to cancel the alarm / confirm red flag
 - SOS switch for calling emergency

ONI® tracking system will be installed to every rally car before each event. Detailed information will be published no later than during roadbooks issuing. After arrival to the scrutineering, device administrator will check the install of the tracking unit, antenna and control panel. Antenna and power supply cables can be purchased by the crew for personal ownership. At the end of the rally or after retirement, the tracking unit or complete tracking system must be returned to the device administrator. Usually, the devices are collected in the last service area or before finish of the rally.

Installation of the unit in the car

To fit the tracking unit with display, antenna and control panel, it is necessary for the competitor to follow exactly the Installation guide, to keep the unit in good condition and to protect it against damage and fouling (especially the connectors) during the time. All rally participants will receive a rental version of the set equipped with magnetic roof antenna. Control panel with OK button and SOS switch is in one box for which the competitor has to choose a suitable place for fitting within the reach of both crew members. It is obliged to prepare everything for its installation prior to the scrutineering.

The unit operation during rally

To operate the unit, the crews have to meet all instructions as mentioned in the User's guide.

Operation during events on SS:

• Accident (crash detection)

The unit evaluates the situation and sends info about accident to rally control. Crew cannot affect this message. The display shows message: **Are you OK?** Confirm.
10 s after this question, the siren waits for next 15 s
If the crew pushes **OK** button, this information is sent to rally control and information about accident is not sent to the unit of following cars in the stage.

• Stop in SS

When the car stops in SS, it is counted as an obstacle. Unit signals to the crew by sound siren and text, that they have stopped. This signal takes 15 s.
If the crew doesn't push OK, warning message is sent to the rally control and also to other cars, which are currently in the stage arriving to the obstacle.
With pushing the OK button, the crew confirms that they are okay, on the display is shown message OK and information about obstacle is not sent to the unit of next cars in the stage.

• Request for help

Changing the switch is confirmed by SOS message on display, also the siren sounds.
The siren sound can be cancelled by pushing OK button.

Red flag

When the rally control hangs out the red flag, the display shows big message RED FLAG (with red background) and the siren sounds. Crew has obligation to confirm receiving the red flag by pushing the OK button and to reduce the speed according to the sporting regulations.

The siren sound can be cancelled by pushing OK button.

The red flag on display can be cancelled only by rally control.

Speed checking during the reconnaissance

During reconnaissance the crew is obliged to follow traffic rules of Austria. Not respecting this rule, especially exceeding the speed limits, will be monitored via ONI® tracking system. This checking doesn't exclude other checks, i.e. police controls according to their standard procedures.

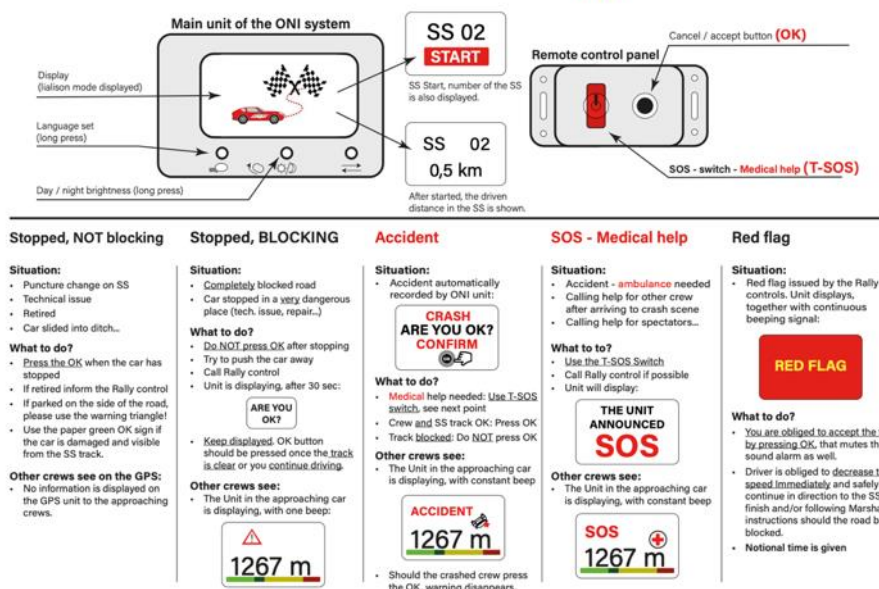

ONI® tracking system for reconnaissance

Tracking system is checking the speed in every moment during the reconnaissance. Every crew will pick up the ONI® recce tracking unit together with roadbook. Installation of the unit and using during reconnaissance is obligatory for all crews during the whole schedule of reconnaissance according to the art. 3 Reconnaissance schedule. For speed checking during the reconnaissance, NCL 21 units are used.

NCL21 unit is started during roadbook issuing before starting of reconnaissance. For whole reconnaissance the unit is working on its own battery. It is not necessary to plug the unit to any power supply. It is possible to place the unit on metal surfaces - magnets are implemented in the unit. Not using the unit in a rally car during reconnaissance will be fined. Every attempt to falsify, manipulate or infringe the unit for reconnaissance or any device, which will make impossible to collect data because of external interference will be reported to the stewards who can penalize the crew up to refusing the start. Decision regarding seriousness of the offence and its repeating is in Clerk of the Course authority. For exceeding the speed limit, sanctions can be given according to supplementary regulations or championship regulations.

RALLY WEIZ - NON-LIABILITY CLAUSE

The participants are aware of, understand and fully accept the risks and dangers involved in motor racing. Should a participant be injured during an event, he explicitly declares through his entry for the event that he approves all medical treatment, rescue and transportation to hospital or other emergency facilities. Such measures will be adopted by personnel appointed specifically for this purpose by the promoter, to the best of the personnel's knowledge and following their assessment of the participant's condition. The participants undertake to assume all related costs, provided such costs are not covered by the licence accident insurance or other insurance policies. The participants hereby waive all direct and indirect claims for compensation from AMF, its officials, the promoter and/or organiser or the racing circuit owners, from any other person or association linked with the event (including all officials and authorities or bodies who have granted licences for the event), and from other entrants and drivers/riders, hereinafter referred to as "the parties". The participants do so for themselves and their legal successors, and consequently for any insurance company with whom they may have concluded additional policies. In submitting their entries for this event, the participants hereby declare that they irrevocably and unconditionally waive all rights, appeals, claims, demands, acts and/or proceedings which they themselves might institute or which might be instituted by third parties acting on their behalf against "the parties". The participants do so in connection with injury, loss, damage, costs and/or expenses (including lawyers' fees) which they may incur due to an incident or accident as part of the event. In submitting their entries for this event, the participants declare irrevocably that they discharge, release and relieve "the parties" for all time from any liability for such losses, and that they shall guard them against such losses and hold them harmless. In submitting their entries for this event, the participants declare that they understand the full significance and repercussion of the present declarations and agreements, that they are entering into such obligations of their own free will, and in doing so irrevocably waive all right of action for damages against "the parties", insofar as permissible as Austrian law currently stands. The participants in any case renounce for themselves and their legal successors all claims against "the parties", therefore in particular against the AMF, its officials, the promoter and/or organiser or the racing circuit owners, and against the authorities or bodies who have granted licences for the event, regarding damage, loss, harm, or injury of any kind connected with a typical sports risk, in particular any typical and foreseeable damage, loss, harm or injury. This applies also in the event of minor negligence on the part of "the parties".

RALLY WEIZ - ARBITRATION AGREEMENT

- Any dispute arising between the participants and the AMF or its officials, and the promoter and/or organiser, and between the AMF or its officials and the promoter and/or organiser, because of claims (personal injury, damage to property or financial damage) in connection with the motor-racing event, training sessions or races shall be settled by an arbitration tribunal to the exclusion of the courts of general jurisdiction.
 - The arbitration tribunal shall consist of three arbitrators, namely the umpire and two assessors. The umpire shall be a lawyer or former judge and have experience of liability matters in connection with motor racing.

The assessors shall however be free at any time to replace the umpire appointed in this way by another umpire by mutual agreement.
 - Should a party fail to appoint its assessor within two weeks of receiving the written request from the opposite side or should several joined parties be unable to agree on an assessor within that period, the assessor shall be appointed by the President of the Vienna Chamber of Lawyers on the motion of the other party. The same shall apply should an assessor withdraw from office and the party concerned not appoint a successor within two weeks.
 - Should an arbitrator not assume office, refuse to discharge his duties, cause improper delay, or become unfit to act, the provisions shall apply accordingly for the appointment of a replacement. The arbitrator concerned shall be dismissed at the same time.
 - The arbitration tribunal shall in principle be free to conduct its proceedings as it sees fit, with due regard for the subsidiary legal provisions. The tribunal shall sit in Vienna. The arbitration tribunal may also investigate without petition any circumstances which it deems necessary to clarify the facts of the case and take evidence.
 - The arbitration tribunal shall decide by simple majority. The tribunal shall state the full reasons for its award. It shall also decide on cost apportionment for the costs of both the arbitration proceedings and the legal representation. The arbitrators shall be remunerated in accordance with the provisions of the Austrian lawyers' scale of charges.
 - The arbitration tribunal shall also be entitled to the exclusion of the courts of general jurisdiction to issue injunctions, provided the opposing party is first given an opportunity to express its views. An injunction may also be lifted upon petition in the event of a significant change in circumstances.
